

CHILD ABUSE AND HARASSMENT POLICY

As **HOTEL ANATOLIA**, we demonstrate the utmost sensitivity in all matters related to the protection and well-being of children.

As part of our internship programs involving high school students, we implement preventive measures against child abuse. Both our staff and interns are regularly **informed and trained** on this issue to ensure awareness and vigilance.

Upon check-in, guests are required to present official identification documents. For minor guests staying with their families, **verification is conducted by our front office team** to confirm their relationship.

For children staying without their parents, **official legal documentation and signed parental consent forms** are required at check-in to proceed with the reservation.

In particular, during **sports school group stays**, all guests under the age of 18 must provide legal permission from their guardians. Room assignments for such groups are handled carefully by our front office team, prioritizing the **safety and security of the children** at all times.
